No. of commenters	3	
No. of comments	12	

- Ballot passes
- 1 outstanding “disapprove” vote
- 12 comments

Editorial comments

- ER
  - 1 comment
    - #7: useless reference to Fig. 6-6

    To be discussed

    - #11: typo in reference in description of MIB object « Ieee8021CBTaggedType »

    Accept

    - #12: in Fig. 12-6, table header does not reflect the deprecated status of the listed parameters

    Accept

    - #10: Unupdated references in the ieee802-dot1cb-frer YANG module (stream-split table)

    Accept in principle

- T and TR
  - 7 comments
    - #1, 9: formalism in new autoconfiguration YANG module
      - Missing « decription » statement in augment
      - « if-feature » not in right place

    Proposed accept

    - #3, 5, 6: mentions to the Stream identification function performing sequence encode/decode operations
      - This ability of the Stream id function is not explicitely specified anywhere
      - #6: slip of the pen… : « sequencing function » term used instead of « sequence decode »

    To be discussed

    - #2, 4: incomplete description of the actions performed by the sequence encode/decode function
    - #8: lack of flexibility in the placement of the sequence encode/decode function in the bridge ports

    To be discussed (#2: accept in principle)
