

IEEE 802 Working Group and Technical Advisory Group status reports

14 November 2022

David Law
Chair, IEEE 802.3 Working Group
dlaw@hpe.com

Abstract

During the IEEE 802 Executive Committee workshop on Saturday 16 July 2022, there was a discussion about using the existing tools to promote more inter Working Group (WG) and Technical Advisory Group (TAG) collaboration and coordination. One of these existing tools is the IEEE 802 Plenary Session tutorial program and this tutorial is intended to promote more collaboration and coordination. During this tutorial, each IEEE 802 WG and TAG will provide a status report listing each of their projects, under consideration and in progress, including a brief overview of the technology under consideration.

Agenda

- 21:00 Introduction David Law
- 21:05 [IEEE 802.1](#) Higher Layer LAN Protocols Working Group Glenn Parsons
- 21:17 [IEEE 802.3](#) Ethernet Working Group George Zimmerman
- 21:29 [IEEE 802.11](#) Wireless LAN Working Group Dorothy Stanley
- 21:41 [IEEE 802.15](#) Wireless Specialty Network Working Group Clint Powell
- 21:53 [IEEE 802.18](#) Radio Regulatory TAG Edward Au
- 21:05 [IEEE 802.19](#) Wireless Coexistence Working Group Steve Shellhammer
- 22:17 [IEEE 802.24](#) Vertical Applications TAG Tim Godfrey
- 22:29 Wrap up David Law
