Invitation for January '12 Interim in Munich

- Munich (Germany)
 - Capital city of Bavaria
 - Famous for its breweries
 - About 1.35 million inhabitants
 - About 100 km north of the Alps
 - International airport (MUC)
 - Excellent public transport
- January in Munich
 - ...not really the high season for Munich but sight-seeing is possible
 - For drinking beer, people prefer indoor locations, like the Hofbräuhaus
 - Average temperature: -2.2°C (high) to -9.9°C (low)
 - As lower, as more bright and sunny with stunning views to the Alps
 - Snow not unlikely, but transportation systems are well prepared for it
- Nokia Siemens Networks would invite for the Jan '12 interim
