P802.1aq
This PAR is valid until 31-Dec-2011. It was extended on 11-Sep-2009.
PAR Extension Request Date: 20-Jul-2011
Extension Request Submitter Email: tony@jeffree.co.uk
Why is an extension required?: This project is nearing completion of its working group balloting, and is close to technical completion; however, there is not enough time to complete Sponsor balloting before the end date of the PAR. We therefore need an additional year to allow us to complete the project.

Do the title, scope and purpose match that of the current draft?: Yes
Number of Previous Extensions Requested: 0
Number of Years Being Requested: 1
Document Development Information
  a. What date did you begin writing the first draft?: 04-Mar-2006
  b. How many people are actively working on the project?: 35
  c. How many times a year does the working group meet?
     In person?: 6
     Via teleconference?: 0
  d. How many times a year is a draft circulated to the working group via electronic means?: 2
  e. What percentage of the Draft is stable?: 85%
  f. How many significant work revisions has the Draft been through?: 10

Project Plan
  When will IEEE sponsor balloting begin?: 01-May-2012
  When do you expect to submit the proposed standard to RevCom?: 01-Oct-2012
  Has this document already been adopted by another source?: No

For an extension request, the information on the original PAR below is not open to modification.

Type of Project: Amendment to IEEE Standard 802.1Q-2005
PAR Request Date: 27-Jul-2005
PAR Approval Date: 22-Sep-2005
PAR Expiration Date: 31-Dec-2011
Status: PAR for an Amendment to an existing IEEE Standard

1.1 Project Number: P802.1aq
1.2 Type of Document: Standard
1.3 Life Cycle: Full Use

2.1 Title: IEEE Standard for Local and Metropolitan Area Networks: Virtual Bridged Local Area Networks - Amendment 8: Shortest Path Bridging

Contact Information for Working Group Chair
  Name: Anthony Jeffree
  Email Address: tony@jeffree.co.uk
  Phone: +44-161-973-4278

Contact Information for Working Group Vice-Chair
  Name: Paul Congdon
  Email Address: paul.congdon@hp.com
  Phone: 916-785-5753

3.2 Sponsoring Society and Committee: IEEE Computer Society/LAN/MAN Standards Committee (C/LM)
Contact Information for Sponsor Chair
  Name: Paul Nikolich
  Email Address: p.nikolich@ieee.org
  Phone: 857.205.0050

Contact Information for Standards Representative
None

4.1 Type of Ballot: Individual
4.2 Expected Date of submission of draft to the IEEE-SA for Initial Sponsor Ballot: 12/2007
4.3 Projected Completion Date for Submittal to RevCom: 12/2008

5.1 Approximate number of people expected to be actively involved in the development of this project: 50
5.2 Scope: This standard specifies shortest path bridging of unicast and multicast frames, including protocols to
calculate multiple active topologies that can share learnt station location information, and support of a VLAN by multiple, per topology, VLAN identifiers (VIDs).

5.3 Is the completion of this standard dependent upon the completion of another standard: No

5.4 Purpose: This amendment will augment the existing, successful, multi-vendor interoperable bridging specifications to allow use of shortest path communication within administratively defined network regions, while retaining concurrent support for all existing capabilities and configurations.

5.5 Need for the Project: At present traffic for each VLAN (Virtual Local Area Network) is confined to a single spanning tree of bridges and LANs. By removing this restriction, this amendment will increase the bandwidth that can be supported by bridged subnetworks, improve network utilization, and minimize latency. The amended topology protocols will defend against bridge failures that cause long term network failures. This standard will be of benefit to manufacturers of conformant LAN equipment, their customers, and users of LANs or LAN services that are based on such equipment.

5.6 Stakeholders for the Standard:

Intellectual Property

6.1.a. Is the Sponsor aware of any copyright permissions needed for this project?: No

6.1.b. Is the Sponsor aware of possible registration activity related to this project?: No

7.1 Are there other standards or projects with a similar scope?: No

7.2 Joint Development

Is it the intent to develop this document jointly with another organization?: No

8.1 Additional Explanatory Notes (Item Number and Explanation):
