

IEEE 802.1 OmniRAN TG Status and Objectives July 2014 F2F Meeting

2014-07-13

Max Riegel, Nokia Networks
(OmniRAN TG Chair)

Status

- OmniRAN TG initial F2F meeting in Norfolk
 - 8 participants (due to wireless interim the same week on Hawaii?)
 - Establishment of TG in 802.1
 - P802.1CF discussions on ToC, Reference Model and data path solutions
 - Minutes:
<https://mentor.ieee.org/omniran/dcn/14/omniran-14-0043-00-00TG-meeting-minutes-for-may-2014-f2f-interim-meeting.docx>
- Conference call on July 2nd
 - 6 participants
 - SDN update, potential response to liaison-ITUTSG15-LS114_229P-AnnN-0414.DOCX, preparation for San Diego F2F
 - Draft minutes:
<https://mentor.ieee.org/omniran/dcn/14/omniran-14-0047-00-00TG-july-2nd-meeting-minutes.docx>
- Latest TG status maintained on OmniRAN TG Wiki:
 - <https://mentor.ieee.org/omniran/bp/StartPage>

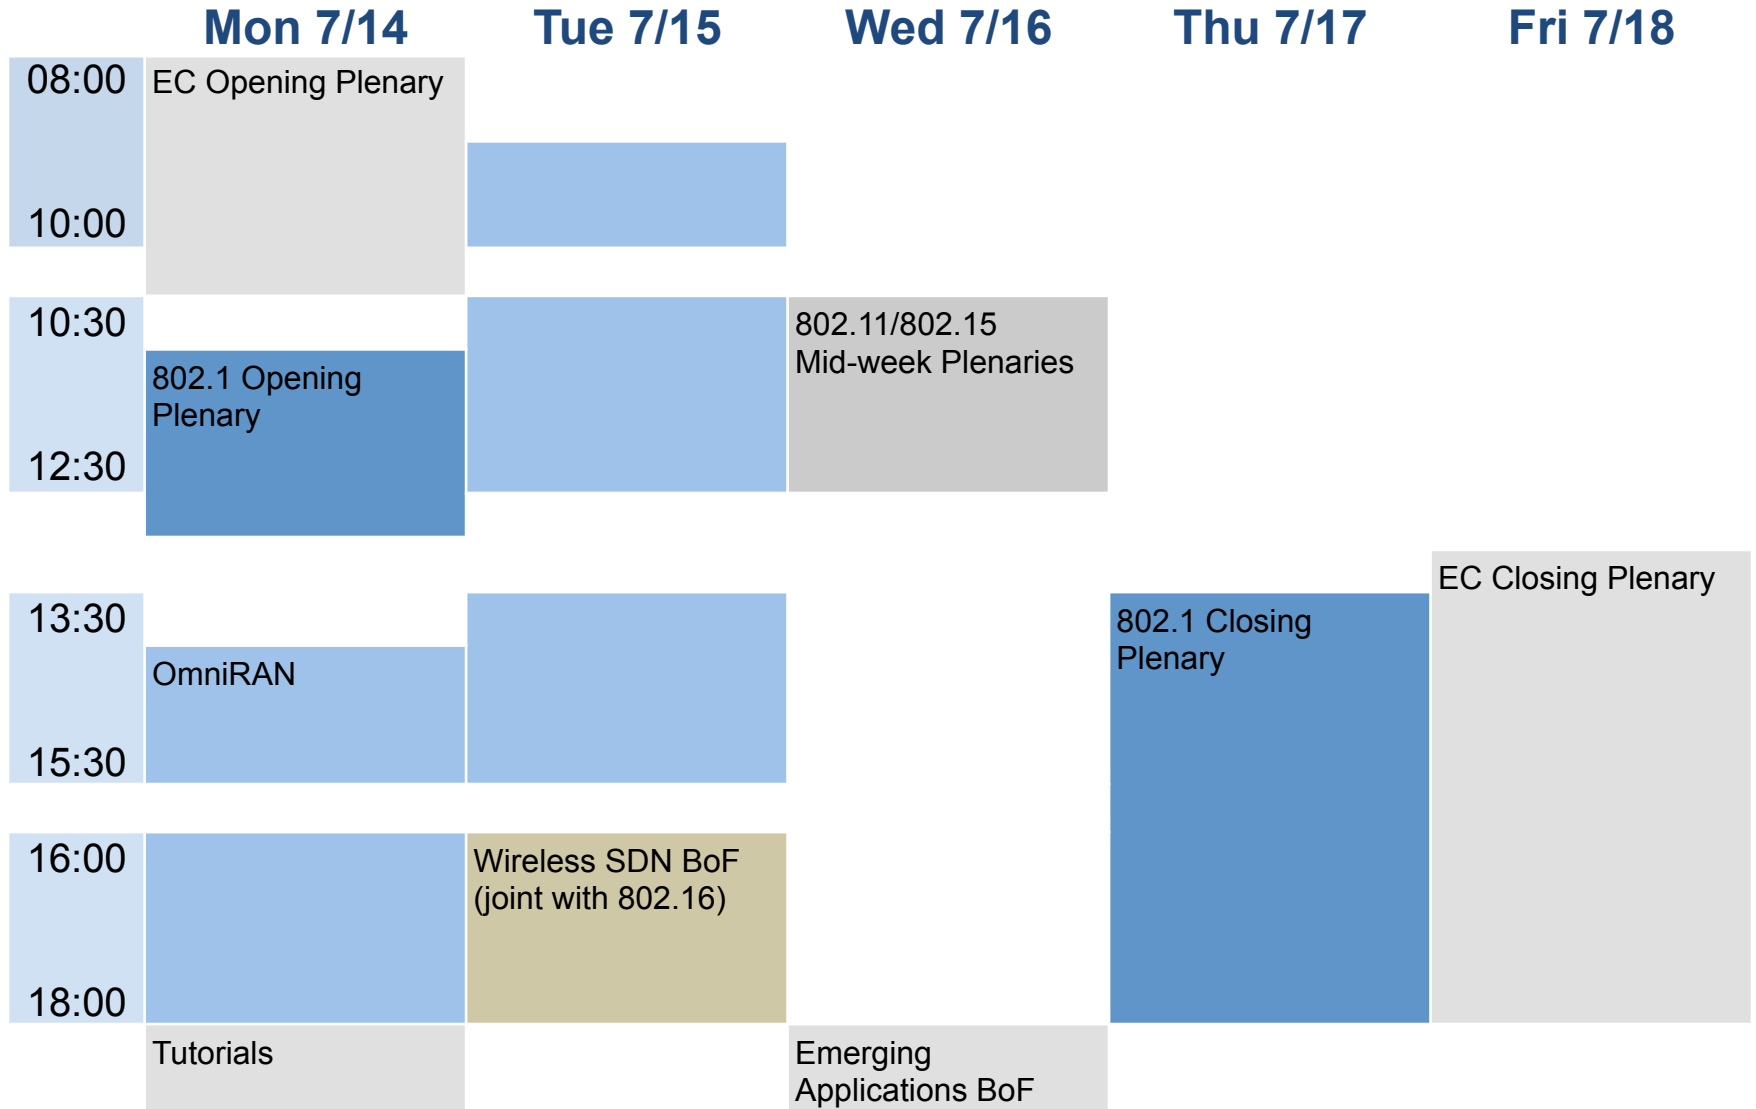

OmniRAN TG July 2014 F2F Session

- Schedule:
 - July 14th, 2014, 2pm - 6pm
 - Gaslamp B (2nd floor)
 - July 15th, 2014, 9am - 6pm
 - PM2 (4-6pm: Wireless SDN BoF together with 802.16)
 - Gaslamp CD (2nd floor)
- Meeting documents and individual contributions on mentor:
<https://mentor.ieee.org/omniran/documents>
 - Please make use of OmniRAN pptx template for your contributions:

Agenda proposal for July '14 session

- Approval of minutes
- Reports
- P802.1CF contributions
 - ToC
 - Network reference model
 - Functional design and decomposition
 - SDN Abstraction
- OmniRAN organizational issues
- ITU-T Liaison response
- Location of September 2014 interim meeting
- Conference calls until Nov 2014 session
- Status report to IEEE 802 WGs
- Motions to the 802.1 closing plenary
- AOB

July 2014 Agenda Graphics

Wireless SDN BoF

Tuesday, July 15th, 16:00-18:00, Room: Gaslamp CD

- Following the "Wireless SDN" BoF meeting at the January Wireless Interim, and its successor at the March 802 Plenary, we are organizing yet another such meeting for the July 802 Plenary. This will be a joint meeting of the IEEE 802.1 OmniRAN TG and the IEEE 802.16 WG, held in one two-hour slot. Contributions are welcome, as are further discussions on this list regarding the subject matter. You may submit contributions via the Mentor server facility of either OmniRAN or IEEE 802.16. For more information, contact:

Max Riegel, Chair, OmniRAN TG
Roger Marks, Chair, 802.16 WG

- Please upload contributions to the OmniRAN file space on mentor tagged by 'Wireless SDN BoF':
<https://mentor.ieee.org/omniran/documents>
- Draft agenda: <http://tinyurl.com/SDN20140715>
