

# 802.1Qcc D0.4: Intro for Comment Resolution

Rodney Cummings  
National Instruments

# Qcc D0.4 Ballot Summary

- Total 802.1 voters: 50
- Total 802.1Qcc votes: 24
  - 48%... ballot did not officially pass
  - 2 Yes, 9 No, 13 Abstain
- Proposed plan
  - Discuss/resolve comments as if D0.4 passed
  - Editor uses that resolution to create D0.5

# 802-1-Qcc-d0-4-informal-pdis-v1.zip

- Problems with Microsoft Access MyBallot database
  - “Help with MyBallot MDB problem” on 802.1 mailing list
  - Editor will fix for D0.5, but need to proceed with D0.4
- 802-1-Qcc-d0-4-informal-pdis-v1.zip
  - Editor added 3 columns to each XLS ballot
    - Order: Order to discuss in meeting (‘a’ through ‘f’)
    - Group: Number to group similar important comments
    - Proposed: Same as proposed Response in MyBallot database
  - ZIP file contains all XLS ballots with editor’s 3 columns
    - Uploaded to same location as previous proposed dispositions (pdis)

# Proposal for Resolution

- Organize similar to previous 802.1CB resolution
- Order
  - ‘a’: Comment has a group number
    - Similar comment multiple times, or key issue to discuss
  - ‘b’: Must-be-satisfied=Yes, Proposed=Reject
  - ‘c’: Must-be-satisfied=Yes, Proposed=Discuss
  - ‘d’: Must-be-satisfied=No, Proposed=Discuss
  - ‘e’: Must-be-satisfied=No, Proposed=Reject
  - ‘f’: All others (Proposed=Accept or Accept-in-Principle)

# Proposal for Discussion

- Part 1: 2 hours
  - Discuss in order
  - Hopefully we can get through 'a', 'b', and 'c'
    - If not we may need to continue into weekly TSN calls
- Part 2 (Thursday): 30 minutes
  - Opportunity for commenter to discuss any remaining

# Thank you
