

# P802.1CM Editor's Report

János Farkas  
janos.farkas@ericsson.com

May 22, 2018

# Status Update

- › Clean Sponsor recirculation ballot (closed March 25)
- › RevCom proposed approval (April 26)
- › Standards Board approved (May 7)
- › To be published soon
- › <http://standards.ieee.org/findstds/standard/802.1CM-2018.html>

› **Thank you very much for all of your contributions!**

# Proposal

- › Start an amendment to 802.1CM
- › Amendment scope
  - Updates to address synchronization developments
    - › ITU-T recommendations are under development
    - › 802.1CM synchronization clauses could be amended based on the forthcoming ITU-T recommendations
  - Updates to address CPRI Cooperation developments
    - › The amendment to 802.1CM could address the updates in the eCPRI interface specification and/or eCPRI transport requirements specification, e.g., updates for aligning to 5G requirements
