

**IEEE P802.11
Wireless LANs**

**Liaison from ETSI:
ETSI Draft Standard
HIPERLAN
Functional Specification**

Date: May 29, 1995

ETSI RES 10 made the current draft of their HIPERLAN standard available to participants of the IEEE P802.11 standards work. This version was approved by ETSI RES at its February meeting for public enquiry.

ETSI kindly made the draft available in Word for Windows, V2.0 format. However, for copyright reasons, the file has been protected by a password as they are on the diskette and on the FTP servers.

Those not participating in the IEEE P802.11 work should order the draft from the following address:

ETSI
