Title: ISO/IEC Standard for Wireless LAN

Source: U.S. National Body

Project: Proposed as JTC 1.06.43.11

Action: For adoption

The US National Body respectfully submits the current draft IEEE 802.11 standard for consideration as a possible International Standard if the ballot on the Proposal for a New Work Item for a standard on Part 11: Wireless Medium Access Control (MAC) method and physical layer specifications (doc.: SC 6 N 9997) is approved.

Attachment: IEEE P802.11/D5.0-96/7, Wireless LAN - MAC and PHY specifications
