1.4 Logistics (documentation)

- Dissemination of documentation in electronic format only,
  a) per 802.11 network,
  b) via flash memory card,
  c) diskettes.
- Because of early distribution we need to have the submissions adhere to the rules
- Mandatory use of templates for documents
- Need to be available on network a meeting before agenda item!
1.5 IEEE Patent Policy

- The patent policy is set forth in clause 5 of the IEEE Standards Board Bylaws.
- IEEE standards may include the known use of patent(s), including patent applications, if there is technical justification in the opinion of the standards-developing committee and provided the IEEE receives assurance from the patent holder that it will license applicants under reasonable terms and conditions for the purpose of implementing the standard. This assurance shall be provided without coercion and prior to approval of the standard (or reaffirmation when a patent becomes known after initial approval of the standard). This assurance shall be a letter that is in the form of either
  a) A general disclaimer to the effect that the patentee will not enforce any of its present or future patent(s) whose use would be required to implement the proposed IEEE standard against any person or entity using the patent(s) to comply with the standard or
  b) A statement that a license will be made available to all applicants without compensation or under reasonable rates, with reasonable terms and conditions that are demonstrably free of any unfair discrimination.

1.5 IEEE Patent Policy

- Clause 6.3 of the IEEE Standards Operations Manual
- Through the working group, the sponsor chair shall request that known patent holders submit a statement either that the patent does not apply to the standard or that licenses will be made available without compensation or under reasonable rates, terms, and conditions. This assurance shall be obtained without coercion and submitted to the IEEE at the earliest practical time prior to the approval of an IEEE standard. The IEEE encourages early disclosure to the working group of patent information that might be relevant to the standard.

1.5 IEEE Patent Policy

- If you know about patents or patent applications that are (or may be) required to implement the standards, make it known to the Working Group, so the Chair can send out letters to request the IP statements.

1.6 and 1.7 Individual and Anti-Trust

- In IEEE standards meetings, membership is by individual, hence you do not represent a company or organisation.
- The Anti-Trust laws forbid the discussion of prices.

1.8 Copyrights

- If you know of copyrighted material that would go in the standard as we have drafts now, please let the group know so the Chair has the opportunity to request release statements.
1.9 Other announcements

• 1.9.1 Volunteers needed for Thursday evening to prepare mailing.
