Re:	Recirculation of Working Group Review of Working Document 80216h-06 015	
Abstract	This document contains 1) Suggested remedies to action items from session #43 from Working Group Review 2) New material pertaining to the introductory sections of the Working Draft.	
Purpose		
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures < http://ieee802.org/16/ipr/patents/policy.html >, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair < mailto:chair@wirelessman.org > as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site < http://ieee802.org/16/ipr/patents/notices >.	

Action items from Session #43 and new introductory material for the Working Draft (802.16h-06/015)

Paul Piggin
NextWave Broadband Inc.

Overview

This document considers:

- 1) Suggested remedies to action items from session #43's Working Group Review, namely
Comment 26 of [2] – Correction of document figures.

This is covered in section 1 'Figure Corrections' below.

- 2) New material pertaining to the introductory sections of the Working Draft. Addressing action items:
Comment 4 of [2] – Areas of applicability for LE operation.
Comment 102 of [2] – Applicability of primary user detection.

This is covered in section 2 'Refinement of Introductory Sections' below.

Specific editorial changes

This section provides a list of changes to the draft document.

Blue text represents specific editorial additions.

~~Red strikethrough~~ text is to be deleted.

Black text is text already in the draft.

Bold italic text is editorial instructions to the editor.

1 Figure Corrections

Figure 1 provides the replacement figure for the flowchart algorithm for specific spectrum users. This is Figure h1 in section 6.3.15 of [1].

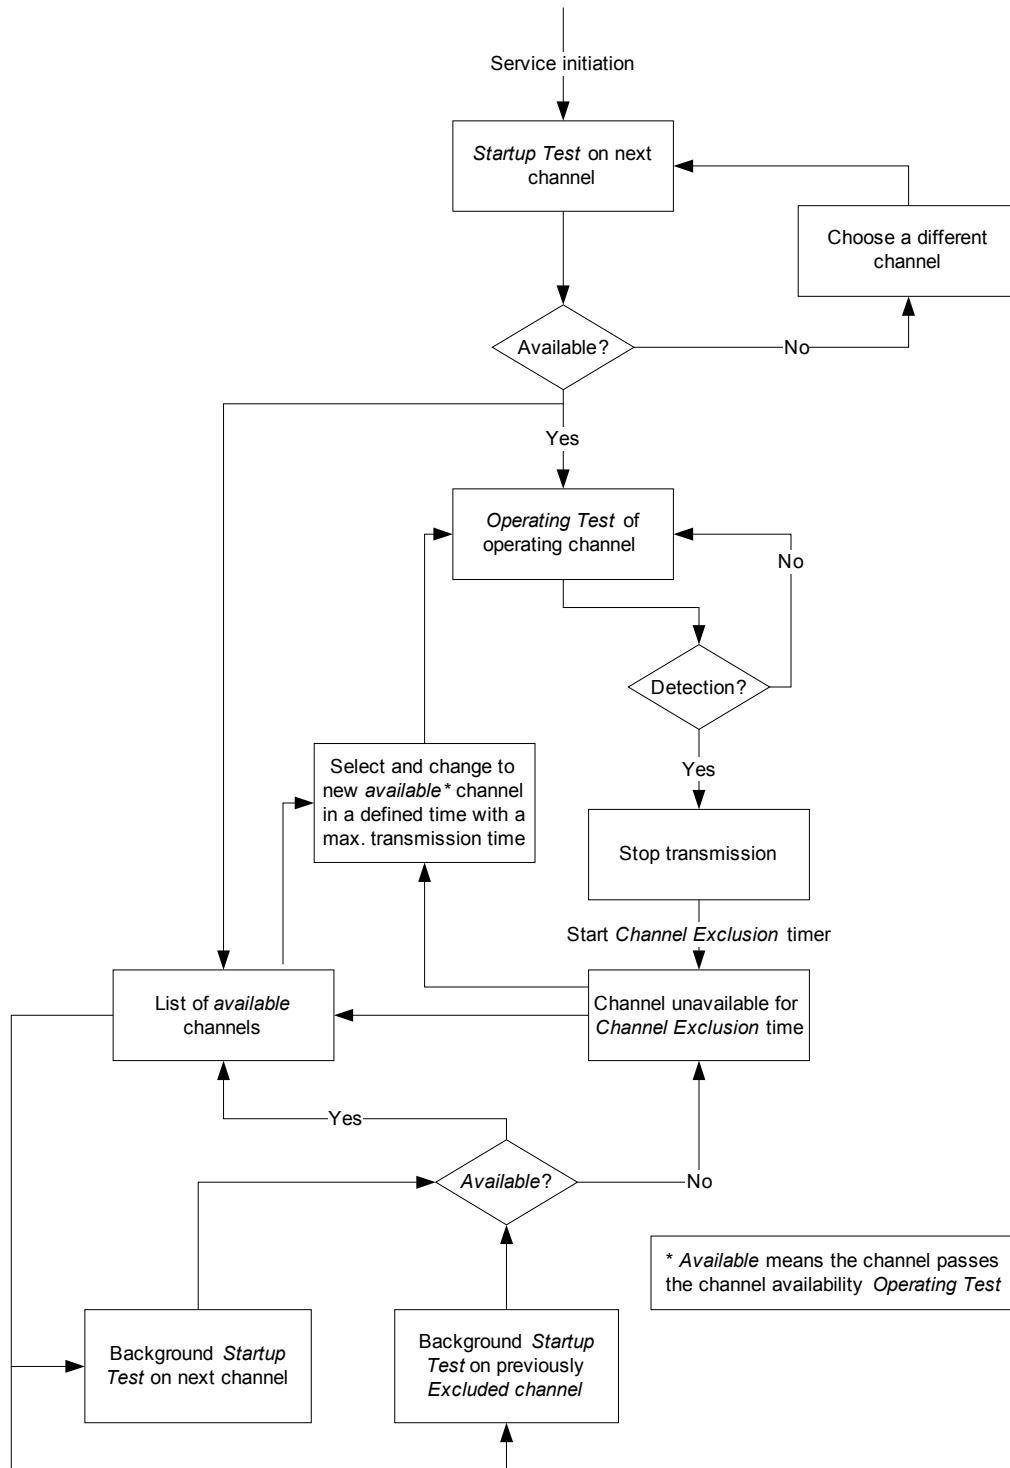

Figure 1 Flowchart algorithm for specific spectrum users.

Figure 2 provides a replacement figure for the extended channel numbering structure. This is figure h2 in

section 6.4.1.2 of [1].

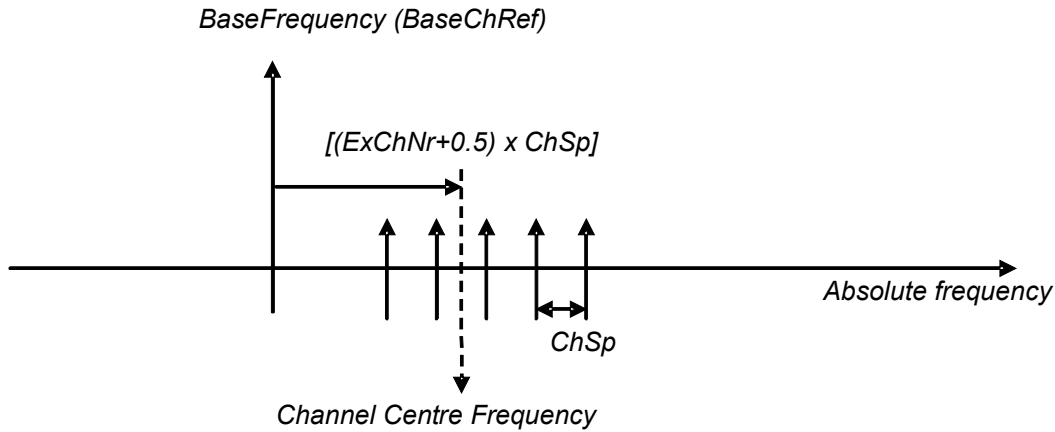

Figure 2 Representation of extended channel numbering structure.

2 Refinement of introductory sections

This section details amendments to the working document [1] addressing unresolved comments in [2]. The specific areas to be considered are given below:

Statement on the areas of applicability for LE operation.

Statement on the detection of primary users.

Statement on how robust operation in LE bands can compliment that given in section 15 of the working document.

TBD
