| Re: | Working Group Letter Ballot #24a for IEEE P80216h/D2 |
| Abstract | It has been decided during session # 47 that DRRM should be removed and adapted in the draft. With respect to this, this contribution provides text remedies on DRRM SS and DRRM BS. |
| Purpose | Action Item from Session #47: DRRM SS and DRRM BS text remedy |
| Notice | This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein. |
| Release | The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16. |
| Patent Policy and Procedures | The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <http://ieee802.org/16/ipr/patents/policy.html>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <mailto:chair@wirelessman.org> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <http://ieee802.org/16/ipr/patents/notices>. |

# Action Item from Session #47: DRRM SS and DRRM BS text remedy

*David Grandblaise*
*Motorola*

## Overview

It has been decided during session # 47 that DRRM should be removed and adapted in the draft (Action item related to comment 296 in [2]). With respect to this, this contribution provides text remedies on DRRM SS and DRRM BS.

## Specific editorial changes

This section provides a list of changes to the draft document.

Blue text represents specific editorial additions.

Red strikethrough text is to be deleted.

Black text is text already in the draft.

***Bold italic*** text is editorial instructions to the editor.

## Text remedy proposal for section x

***Instructions***

TBD

## Annex

This annex contains the comment from [2] to be resolved via these action items covered by the contribution.

***Comment 296:***
(David Grandblaise)

*Page: 55*
*Line: 19*
*Subclause*: *15.1.6*

*Comment:*
"DRRM SS" is used anywhere else in the draft

*Suggested Remedy:*

Define and use DRRM SS in the document if its is required, or simply remove DRRM SS if not relevant.

*Resolution:*
1) Simply change "DRRM BS" and "DRRM SS" to  "BS" and "SS" in figure h20.

2) and make it consistent with the text in the whole document.
