To: Seizo Onoe

Chairman, IMT-Advanced Subcommittee

Advanced Wireless Communications Study Committee

Association of Radio Industries and Businesses (ARIB)

Subject: Report of IEEE 802.16 IMT-Advanced Evaluation Group Coordination Meeting

Dear Mr. Onoe,

The IEEE 802.16 Working Group hosted the IEEE 802.16 IMT-Advanced Evaluation Group Coordination Meeting on 13 January 2010 in San Diego, California.

The Coordination Meeting was very successful. Sixty-one people participated, including the Japanese Administration and TTA as proponents of the IEEE Technology, as well as 13 Independent Evaluation Groups. The results of the meeting are summarized in the Report of the IEEE 802.16 IMT-Advanced Evaluation Group Coordination Meeting (IEEE L802.16-10/0004).

We intend to contribute this meeting report to the 7th meeting of the ITU-R Working Party 5D in February 2010. We have invited the Japanese Administration (MIC) to co-sign such a contribution.

We continue to appreciate support from ARIB and Japan for the IEEE Technology.

Sincerely,

Roger B. Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
