Surname James Given Name David

Perceived Problem [If more space is needed, please provide an additional file, preferably as plain text.]

The rprOamAvResponseTime has no meaning within the current definition, but appears to be from the history of when we assumed the MAC would support some sort of auto-retry and timeouts. Furthermore, there is no cross-reference to an RPR variable, which reinforced the aforementioned thoughts.

Proposed Remedy [If more space is needed, please provide an additional file, preferably as plain text.]

Delete rprOamAvResponseTime material at the middle of page 503 to further down on page 503 as well as other rprOamAvResponseTime related material.

Rationale For Remedy [If more space is needed, please provide an additional file, preferably as plain text.]

Remedy's Effect On Existing Equipment [If more space is needed, provide an additional file, preferably as plain text.]
