

# A System Engineering Approach

Alan Chickinsky

Northrop Grumman

12 September 2002

# The Approach

- To build a good standard we need
  - an outline
  - define the “commonly” used terms
  - define the “commonly” used acronyms
  - Request submissions for MAC and PHY

# What's Next

- For next meeting
  - Each participant submit a list of terms and definitions
    - If the definition is derived from another document, please include the reference
  - Request for PHY and MAC layer proposals
    - Three sections to the proposal
      - A Technical document
      - A MS Powerpoint presentation
      - Proposed text
