Coexistence CG "To Do"s In Making a Recommendation

- Coexistence in Licensed Spectrum
  - Among 802.20 systems
  - Among 802.20 and non-802.20 systems
    - Which
    - Rules of the road – (liaison activity)
- Analysis of what is in the various types of documents
  - Performance (Mandatory)
  - Deployment guides (TR)
  - Coexistence (TR)
- What do we need to know ahead of the development of the spec, what can we do afterwards, what can we not do until after selection of a technology
- Recommend specific impact on existing CG generated acitvites
- Feasibility of proposals
- Documentation structure
- How to organize to do the work
