 - To get attendance credit towards voting membership for this Plenary, one would require 75% attendance in 11 meeting slots

802.21 WG Charter

- IEEE 802.21 is developing standards to enable handover and interoperability between heterogeneous network types including both 802 and non-802 networks

Summary Of Completed Work

- Requirements completed
- Call for Proposals
- Contributions accepted and evaluated by the WG
- A single harmonized draft proposal accepted by the WG to be the baseline draft
- Draft Specification version P802-21-D00.01 – confirmed in May 2005
- 802.21 Requirements sent and solution incorporated in 802.16g draft specifications
- 802.21 Requirements sent to 802.11

Work In Progress

- Comment resolution before the official Letter Ballot process starts – current version IEEE P802.21/D00.05
- Currently contributions are being accepted to identify
 - Technical gaps in the baseline draft
 - Editorial shortcomings
- Drafts on Transport Requirements from IEEE 802.21 to IETF for Event Services, Command Services, and Information Services

Aims for the Session

- WG Officers Election
- Review the draft specifications version 5 for Media Independent Handover Services – P802-21-D00-05.pdf
- Comment resolution based on various contributions
 - Technical
 - Editorial
- Discussion on Transport Requirements draft for IS
- Interaction with other 802 groups and external SDOs
 - 3GPP/3GPP2 next steps discussion
 - Update on 802 Architecture discussion
- WG Letter Ballot Process

Future Sessions
