
PHY Modeling Ad Hoc Report

William Jones
Solarflare Communications

Agenda

- Review of reflector activity
- Cable Ad Hoc Conference call
- May meeting objectives
- Open discussion

Review of Reflector Activity

- PJ Sallaway posted Matlab code used for March presentation
- Background noise measurements posted
- Matlab code posted for capacity calculations using the Cable Ad Hoc models

Cable Ad Hoc Conference Call

- Approximately half of the participants were PHY Modelers
- Established Cat5e and Cat6 models for IL, RL, Next and Fext
- Performance simulations now proceeding

Objectives for May meeting

- Reach consensus on Technical Feasibility
- Complete the crafting of the Technical Feasibility portion of the 5 Criteria

Open Discussion
