CU4HDD Study Group – Task Force Meeting Minutes – 10-Mar-2016

Prepared by Dan Smith, acting chairman of Ad Hoc calls

Call Began at 11:11 AM, MT.

Agenda:

- Final discussion and updates before plenary

Preliminaries:

Patent statement was presented with no response from the participants.

Presentation/Discussion:

- Simple wording will be included to our PAR/CSD/Objectives to indicate that the storage enclosure can contain backplanes, cables, and connectors, but that the system is treated as a whole. Careful wording will be used to prevent comments and misunderstanding in the Plenary.
- We concluded that the ‘channel’ description from Anthony Calbone is complete enough for Plenary use. Anthony will make some slight editorial changes, and that version will be sent to Yong and Dan for posting, before the Plenary.

Adjourned: 12:04 MT

Next Ad Hoc Call: Thursday, 24-Mar-2016, after the Plenary. A calendar invite will be sent with the contact details therein.
