IEEE 802.3
CU4HDD Study Group – Task Force Ad Hoc Minutes – 27-Oct-2016
updated

Prepared by Dan Smith, acting chairman

Call began on 10/27/2016, at 11:01 AM, MT; ended 12:15 PM MT.

Agenda:

- Comment resolution discussion for all Technical comments to date.

Preliminaries:

Patent statement was presented with no response from the participants.

Presentation/Discussion:

- Dan showed his new supporting document, smith_3bcb_01_20161027.ppt, that was meant to remove all ambiguity of references to test patterns, as an In Principle solution for comment #267. During the discussion, it was found that Clause 120.5.10 in 802.3bs (the source), has been moved to Clause 120.5.11, and has changed significantly. This will require work from Dan and Anthony Calbone to create new wording for the solution that will be acceptable to the commenter. When that is sorted, Dan will post this document as a new supporting document on the Public, Ad Hoc page, and eventually on the TF Meeting page for Nov Plenary week.
- Yong went through document, Kim_3cb_02_Oct27-2016_CL127-2-6_Proposed_CR.pdf, updated and finalized and posted on the Ad Hoc public page. Some changes had to be added to further the completion of the receive path, not originally in the comment. Yong's document has been sent to 2 commenters for approval. The work is proceeding, in this area, on the draft.
- Larry showed his highlighted PDF of the "double-documentation" research he did on Annexes 128A and 130A. He found many more items that needed correction. Dan will put these "new" items that are not part of existing comments (which could be added as In Principle), in to a bucket document to be issued as part of the editorial work on Draft 2.0 that will be forwarded as Draft 2.1 during the Working Group Ballot recirculation.
- The Chief Editor has completed many of the changes to date and accomplished changes with regard to Framemaker graphics issues. An intermediate draft should be posted soon on the Private page for review.

Next Meeting: Ad Hoc call, Thursday, 3-Nov-2016. Webex details are on the [Ad Hoc page](#).
This will be the last Ad Hoc call before the November Plenary.

Attendees:

Name	Affiliation	Attended 10/27/2016
Calbone, Anthony	Seagate	x

Name	Affiliation	Attended 10/27/2016
Carlson, Mark	Toshiba	
Chalupsky, David	Intel	
Chandrian, Ajith	Cisco	
Chang, Jacky	HP	
Cox, Alvin	Seagate	
Czekalski, Marty	HGST	
D'Ambrosia, John	DELL	
Feyh, German	Broadcom	
Ghani, Abbas	Ericsson	
Hatfield, Jim	Seagate	x
Haser, Alex (Ms.)	Molex	
Healey, Adam	Broadcom	
Horner, Rita	Synopsys	x
Jones, Peter	Cisco	
Kim, Yong	Broadcom	x
Kipp, Scott	Brocade	
Law, David	HPE	
Lo, William	Marvell	
Marris, Arthur	Cadence	
McCarthy, Mick	Analog Devices	
McMillan, Larry	Western Digital	x
McSorley, Greg	Amphenol	
Mellitz, Rich	Intel	
Poh, Ed	Molex	
Parthasarathy, Vasu	Broadcom	
Rahman, Hamza	Dell	
Ran, Adee	Intel	
Schoenhals, Mark	Marvell	
Sedarat, Hossein	Aquantia	
Sinha, Santanu	Broadcom	
Skaar, Tom	Seagate	
Smith, Dan	Seagate	x
Sommers, Scott	Molex	
Souvignier, Tom	Broadcom	
Suhler, Paul	HGST	
Sun, Phil	Marvell	
Svensen, Justin	LIT	
Telang, Vivek	Broadcom	
Tsang, Dennis	Halo	

Name	Affiliation	Attended 10/27/2016
Tenea, Bogdan	Ixia	
Tracy, Nathan	TE Connectivity	
Tran, Paul	Marvell	
Walker, Dylan	Walker	
Wang, Roy	HPE	
Wassenberg, Paul	Marvell	
Wu, Peter	Marvell	
Zemach, Rami	Marvell	
Zhang, Jin	Marvell	
Zhang, Vince	Halo	
Zimmerman, George	CME Consulting, Inc.	
Zimmerman, Yaron	Marvell	
Attendee Count:		6
