Installed Cable Data

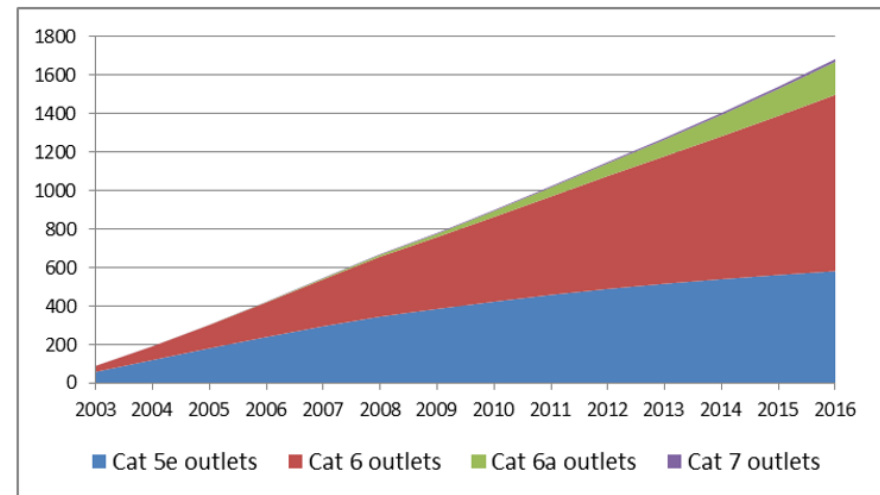

Current installed base ~38% CAT5e

2014 installed outlets

Projected outlets deployed show strong CAT5e future installations.

Data from: "Worldwide Installed base for copper structured cabling." SUMMARY Broadcom, Cisco, Dell and HP: BSRIA 58448: Dated December 11, 2014

Proposal

Given the large presence of deployed CAT5e, the NGEABT study group should include 5Gb/s over CAT5e as part of the project.
