CEI-28G-VSR Topics for Discussion (per Liaison)

- Connectors
- Optics Roadmap
- Channel
 - Loss Budget
 - Crosstalk Targets
- Direct Attach Cu Cabling
- Manual Tx Tuning?

Presentations for today

- John D'Ambrosia (Force10) - "OIF CEI-28G-VSR and the IEEE 802.3ba-2010 Architecture," (dambrosia_02_0610)
- Mike Dudek (Qlogic) – "Investigation of limiting solutions for 850nm 16GFC," (09-030v0.pdf)
- Francois Tremblay (Gennum) - "Module retiming and power."
- Ali Ghiasi (Broadcom) – "Evolution of 100G Host to Module" (ghiasi_01_0610)
- Greg McSorley (Amphenol) – QSFP Data
- Mike Fogg (Tyco) – 28Gb/s I/O Update (fogg_01_0610)
- Galen Fromm (Molex) – 25G QSFP Variant

Next Meeting

- July
 - Face-to-face @ IEEE 802 Plenary, Tuesday, 7/13, 7 to 9pm.
Room Location— to be announced
 - Present Proposed Response to IEEE 802.3 WG
