

**Units Tested:**

1. Nortel unit with two D-Cell power supply
2. Lucent unit with AC power supply

**Test Method:**

1. Verify operation of unit with provided “dummy load” and 1M CAT5 patch cord
2. Plug unit under test into legacy port with 1M CAT5 patch cord
3. Repeat step 2 with all legacy equipment within reach
4. Plug unit under test into legacy port with 1M “Twisted” CAT5 patch cord
5. Repeat step 4 with all legacy equipment within reach
6. Verify operation of unit with provided “dummy load” and 1M CAT5 patch cord
