

Annex 28B

(normative)

28B.2 Technology Ability Field bit assignments

Change the first sentence in 28B.2 to read:

The Technology bit field consists of bits D5 through ~~D12~~D11 (A0–A7A0–A6, respectively) in the IEEE 802.3 Selector Base Page. Table 28B–1 summarizes the bit assignments.

Delete the row containing bit A7 of Table 28B-1:

Table 28B–1—Technology Ability Field bit assignments

Bit	Technology	Minimum cabling requirement
A7	Reserved for future technology	Not applicable

28B.3 Priority resolution

Change the list in 28B.3 by placing “10GBASE-T full duplex” as bullet (a) and renumber other bullets.

- a) 10GBASE-T full duplex

Insert the following note after the second paragraph.

NOTE— Refer to 28.2.1.2.3 for resolution of extended next pages.
