- Teleconference: Wednesday, May 11 (10am PST)
- Wednesday, May 18 (midnight EST)
 - Deadline for requests for presentation time.
- Monday May 16 – Wednesday May 18
 - IEEE P802.3ap Task Force Meeting
 - Austin TX

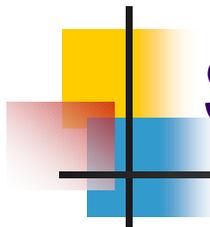

Meeting Agenda

- Carry-over items
- New business
 - Mellitz: “Normative Channel Model”
 - D’Ambrosia, Mellitz, Hendrick: “Informative Channel Model”
- Walk-in items
- Straw polls

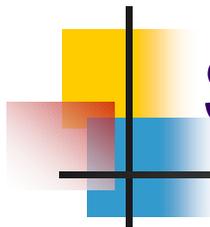

Straw poll Question 1:

- Are we ready to report the channel Informative model as complete

Straw poll Question 2:

- What should the Normative Channel model look like:
 1. A full channel simulation including cross talk, and standard Rx and Tx, like StatEye
 2. A Link Budget, like that described in popescu_c1_0205 or as in moore_01_1104
 3. .

Straw poll Question 3:

- Are you interested in using an Rx normative spec instead of or in addition to a normative channel spec

(any work on an Rx normative spec would have to be done in a separate Forum)
