

This is a slightly modified copy of something already posted to the reflector.

If i look at abler\_01\_0106 and abler\_c1\_0106, and do some eyeball interpolation (the data is too jumpy to justify anything more precise.)

Source of Interference	EIT equivalent	sum as
Crosstalk	10mV	RSS
Self Interference	10mV	RSS
50mU p-p DCD	7mV	Linear
-----		
total	21mV
