

# **P802.3ar Congestion Management Task Force**

## ***Agenda***

**Kevin Daines**  
**World Wide Packets**

**Denver, Colorado**

# *Agenda*

- **Welcome and introductions**
- **Appoint recording secretary**
- **Approve minutes**
- **Reflector and web**
- **Ground rules**
- **IEEE**
  - **Structure**
  - **Bylaws and rules**
  - **Call for patents**
  - **IEEE 802.3 standards process**
- **Liaison letters**
- **Presentations/discussion**
- **Motions**
- **Future meetings**

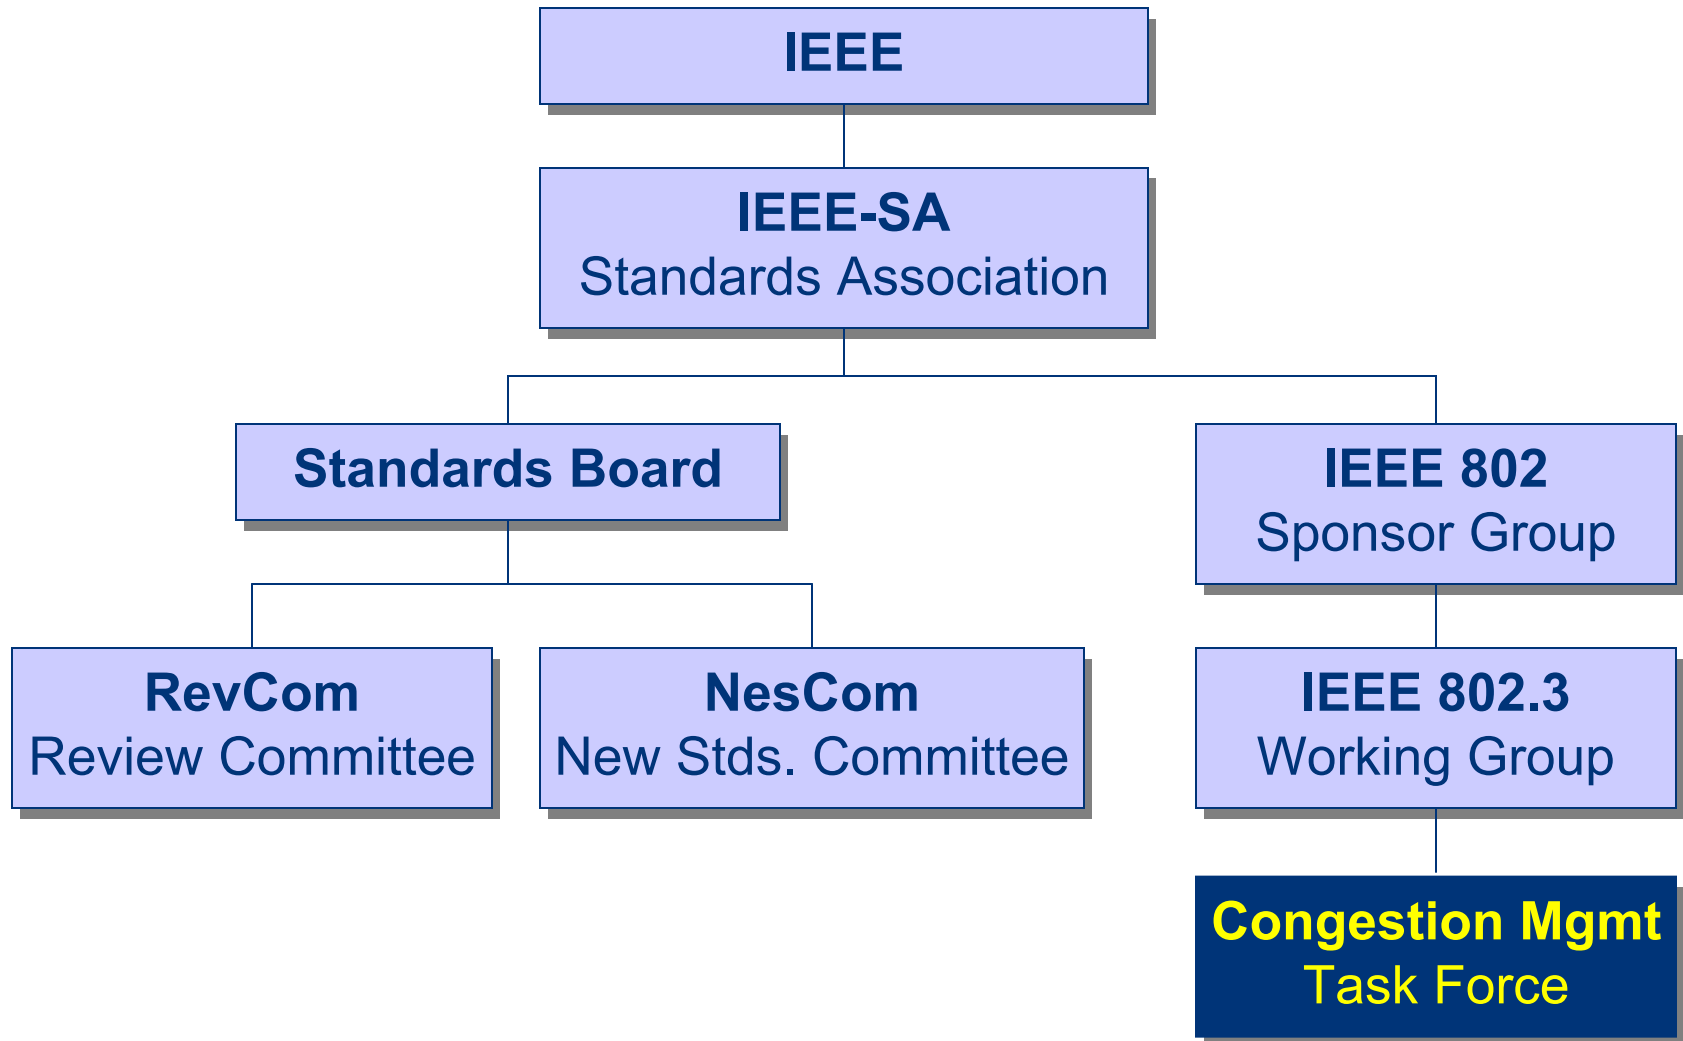

# *Reflector and web*

- To subscribe to the Congestion Management TF reflector send an email to:  
**[listserv@ieee.org](mailto:listserv@ieee.org)**
- with the following in the body of the message:  
**subscribe stds-802-3-cm <first name> <last name>**
- Congestion Management TF web page URL:

# ***IEEE-SA Standards Board Bylaws on Patents in Standards***

## **6. Patents**

- IEEE standards may include the known use of essential patents and patent applications provided the IEEE receives assurance from the patent holder or applicant with respect to patents whose infringement is, or in the case of patent applications, potential future infringement the applicant asserts will be, unavoidable in a compliant implementation of either mandatory or optional portions of the standard [essential patents]. This assurance shall be provided without coercion. The patent holder or applicant should provide this assurance as soon as reasonably feasible in the standards development process. This assurance shall be provided no later than the approval of the standard (or reaffirmation when a patent or patent application becomes known after initial approval of the standard). This assurance shall be either:
  - a) A general disclaimer to the effect that the patentee will not enforce any of its present or future patent(s) whose use would be required to implement either mandatory or optional portions of the proposed IEEE standard against any person or entity complying with the standard; or
  - b) A statement that a license for such implementation will be made available without compensation or under reasonable rates, with reasonable terms and conditions that are demonstrably free of any unfair discrimination.
- This assurance is irrevocable once submitted and accepted and shall apply, at a minimum, from the date of the standard's approval to the date of the standard's withdrawal.

**Approved by IEEE-SA Standards Board – March 2003 (Revised February 2006)**

# *Inappropriate Topics for IEEE WG Meetings*

- Don't discuss the validity/essentiality of patents/patent claims
- Don't discuss the cost of specific patent use
- Don't discuss licensing terms or conditions
- Don't discuss product pricing, territorial restrictions, or market share
- Don't discuss ongoing litigation or threatened litigation
- Don't be silent if inappropriate topics are discussed... do formally object.
  
- If you have questions, contact the IEEE-SA Standards Board Patent Committee Administrator at [patcom@ieee.org](mailto:patcom@ieee.org) or visit <http://standards.ieee.org/board/pat/index.html>

# ***Objectives***

- 1) Specify a mechanism to limit the rate of transmitted data on an Ethernet link**
- 2) Specify a mechanism to support the communication of congestion information**
- 3) Minimize throughput reduction in non-congested flows**
- 4) Preserve the MAC/PLS service interfaces**

***Approved by IEEE 802.3 WG on 18-Nov-2004***
