

IEEE P802.3av GEPON Task Force

(Some) Motions and Work Plan

Atlanta, GA

November 12-15, 2007

Glen Kramer, glen.kramer@ieee.org

Motion #11

- **Adopt draft 1.0 of clauses 64, 91, and 92 as presented in 3av_c64_d1_0.pdf, 3av_c91_d1_0.pdf, and 3av_c92_d1_0.pdf.**
- M: Marek Hajduczenia
- S: Ken Maricondo
- (Technical, $\geq 75\%$)
- Y: 32
- N: 0
- A: 0
- Total: 33

Motion #12

- **Adopt P802.3av project timeline as presented in 3av_0711_agenda.pdf**
- M: Duane Remein
- S: Ken Maricondo
- (Procedural, $\geq 50\%$)
- Y: 29
- N: 0
- A: 4
- Total: 34

Actions for January

- **Remaining PMD parameters**
 1. Burst mode timing study (AGC, CDR)
 2. Transmitter spectral limits
 3. Define TDP value
 4. Jitter budgets reference model
 5. PRX30 Upstream power budget
- **Synchronization FSM for links with FEC**
- **10G PCS changes for burst-mode operation**
 1. BER monitoring
 2. Link fault Signaling
 3. PCS diagnostic modes
- **Coexistence model**
 1. Model description
 2. Layering diagram
 3. Dual-rate burst-mode receiver

Plan for January

November 16, 2007 Commenting period
– December 17, 2007

December 20, 2008 All comments without proposed
responses are published

December 17, 2007 Editors write proposed responses
– January 7, 2008

January 7, 2008 Comments with proposed
responses published

January 22-24, 2008 Comment resolution during
January Interim meeting
