

Minutes

IEEE 802.3aw (IEEE P802.3-2005/Cor 2) 10GBASE-T Corrigendum Task Force
17th January 2007

Mr David Law called the meeting to order and requested the attendees introduce themselves. Mr Glenn Parsons volunteered to take the minutes. The agenda was approved by voice vote.

Mr Law presented the current IEEE-SA patent policy slides to the group.

Mr Law reviewed the Working Group ballot results so far and reminded those that hadn't voted to do so by 19th February 2007.

While actual comment resolution will occur when the ballot has closed, it was noted that the one comment received so far pointed out another error in IEEE Std 802.3an. The comment proposed that a modified PAR should be considered, but after discussion it was agreed that this should be dealt with as a maintenance request to be included in the next revision.

With no further business the meeting was adjourned.

Meeting attendees: David Law (Chair), Pat Thaler, Steve Carlson, Bob Grow, Steve Carlson, Glenn Parsons (Secretary), George Zimmerman, Jeff Lapak, Geoff Thompson
