

Optical Sub Task Force Closing Report

Pete Anslow

IEEE P802.3ba, Vancouver, March 2009

Progress

- Comment resolution of clauses 86, 87 & 88
 - Resolved all 24 T/TR comments received
 - Resolved all 15 E/ER comments received
- Optical track met for 3.2 hours
 - 39 comments works out as 4.9 minutes per comment
 - This compares to 5.7 minutes per comment in New Orleans
 - This is still rubbish, we need to improve for next meeting
- Clauses 86, 87 & 88 are ready for WG ballot

Items decided upon

- No changes to clause 88
- Only editorial changes to clause 87 (Table 87-11)
- Clause 86
 - Equation 86-2 modified for margin for the host PCB and connector
 - Text added stating: cabling is not required to preserve lane numbering
 - “as shown in Figure 86-14” added
 - 86.6 modified to specify OM3
 - Encircled flux definition aligned with clause 52
 - Tx eye mask coordinates in Table 86-8 corrected
 - 86.7.4.5 electrical eye mask measurement bandwidth defined

Thanks!
