

Logic Sub-Task Force Closing Report

IEEE 802.3ba TF
Quebec City May 2009

Mark Gustlin – Cisco

Summary

- Logic Track (Clauses 00, 01, A, 4A, 80, 99, 30, 31B, 45, 73, 74, 81, 82, 83)
 - Total Comments reviewed and resolved: 231 (T/TR/ERs)
 - All editorial comments will be handled by the editors
- All open items have been closed, except for #648, to be closed in the task force (Inter-sublayer interfaces). See [ganga_03_0509](#).
- Need task force agreement to fix one comment:
 - #475, change 40GBASE-SR4 to 40GBASE-CR4

Issues Closed

- Top Issues closed:
 - Generic Inter-sublayer interfaces defined with instance based names
 - Refined the OTN support statement
 - Increased the MAC pause quanta limits
 - Removed support for PRBS9 error checking
 - Several SM and function clarifications in clause 82
 - Many other clarifications and improvements
