

Optical Sub Task Force Closing Report

Pete Anslow

IEEE P802.3ba, Dallas, November 2008

Progress

- Comment resolution of clauses 86, 87 & 88
 - Resolved all 138 T/TR comments received
 - Reviewed 4 out of 32 E/ERs, the remaining Editorial comments will be requested to be closed as per the Editorial Team proposed responses
- Agreements
 - Optical eye mask measurement clauses populated
 - Electrical eye mask co-ordinates set for PPI
 - Polarisation mode dispersion values inserted in clauses 87 & 88

Items requiring contributions

- Jitter requirements for PPI
- Aggregate TP2 signal metric for clause 86
- Skew measurement definition
- Electrical measurement definitions for clause 86
- Jitter specification for stressed receiver sensitivity
- Test patterns for each measurement

Thanks!
