Subject:		Informal Communication, Reply to OIF Liaison Letter 12 March 2014, "OIF CEI-28G-VSR and CEI-28G MR Projects"
Approval:		IEEE P802.3bm Task Force meeting, IEEE 802 March Plenary, Beijing, PRC, March 20, Agreed to at IEEE P802.3bm Task Force meeting, Beijing, 20th March 2014

Dear Nathan,

The IEEE P802.3bm Task Force would like to thank the OIF for its liaison letters with accompanying draft documents. Our Task Force seeks to leverage silicon development based upon the CEI-28G-VSR as a basis for our CAUI-4 interface specification, and therefore is very interested in seeing timely completion of that document.

Recently, the Task Force completed its fifth review of the draft. Our latest draft is attached. Please note that this draft is a work in progress and its detailed content is expected to evolve through completion of the Working Group ballot process and the subsequent Sponsor ballot process.

We appreciate your cooperation in past efforts and look forward to continued dialogue with the OIF.

Sincerely,

Daniel Dove

Chair, IEEE P802.3bm 40 Gb/s and 100 Gb/s Fiber Optic Task Force
