

Evaluation Criteria and Requirements Opening Report

Steve Shellhammer (Qualcomm) and
Guangsheng Wu (Huawei)

China Conference Calls

- Calls since March Plenary
 - ✓ April 3
 - ✓ April 24
- April 3 call
 - ✓ 18 attendances
 - ✓ We mainly discussed two issues:
 - Present to Chinese MSOs the achievements of the last IEEE 802.3bn meeting in Orlando.
 - Channel data for Chinese MDUs.
- April 24 call
 - ✓ 14 attendances
 - ✓ We discussed I I questions brought up by Chinese MSO, such as service provisioning, throughput / spectral efficiency, and spectrum allocation related issues.

China Conference Calls

- Meetings held in Chinese with minutes and presentation material in English
- Minutes sent to email reflector and posted on EPoC website

Japan & North America Conference Call

- April 8 – Two Presentations
 - Japan CATV operators' Requirements for EPoC - Hiroharu Uematsu (Japan Cable Laboratories)
 - Two Classes of Downstream Frequency Band - Naoki Agata and Keiji Tanaka (KDDI R&D Laboratories, Inc.)
- Strong attendance from Japanese Operators and other companies
- These presentations are focused on RF spectrum requirements and can taken as input to the RF Spectrum Ad Hoc when selecting the FDD downstream and upstream bands
- Minutes sent to email reflector and posted on EPoC website

Plan for the week

- No need for this Ad Hoc to meet this week
