Nomenclature

- P802.3by adopted Arabic numeral nomenclature for the MII and AUI
 - i.e. 25G-MII and 25G-AUI
- Should the same be done for P802.3bs 400G? The necessary changes would include:
 - CDAUI-n becomes 400G-AUI-n
 - CDMII becomes 400G-MII
 - CDXS becomes 400G-XS
