Subject: Informal communication to Optical Networking Forum (OIF)

Approval: Agreed to at IEEE P802.3bs Task Force meeting, Waikoloa, HI, 16 July 2015

Dear Mr. Tracy and members of OIF,

We are pleased to inform you that in our July 2015 meeting, we have adopted the baselines from which we will produce P802.3bs 400 Gb/s Ethernet Draft 1.0, which we are expecting to adopt in September. The complete set of baselines adopted so far can be found from the "Baseline Summary" link of our Task Force home page <http://ieee802.org/3/bs/index.html>.

We look forward to continued collaboration with OIF, particularly in regard to draft OIF CEI-56G-MR-PAM and CEI-56G-VSR-PAM implementation agreements which may be relevant to our ongoing work on CDAUI-8 chip-to-chip and chip-to-module specifications.

Sincerely,

John D'Ambrosia
Chair, IEEE P802.3bs Task Force
