

A strategy to dispatch Type 1 and Type 2 MRs

Chad Jones

Cisco Systems, Inc.

Suggested text for 33.1

- This Clause covers Type 1, Type 2, Type 3, and Type 4 PSEs and PDs. If you are reading this for the first time and/or working on a new design that will conform to this standard, you are highly encouraged to focus on the Type 3 or Type 4 variety and discouraged from designing a Type 1 or Type 2 variety. Type 3 has been architected to subsume Type 1 and Type 2. Type 1 and Type 2 PSEs and PDs are not recommended for new installations. For the original specification of Type 1 and Type 2, see 802.3-2015 Clause 33.
