

Closing Report

IEEE P802.3ca 100G-EPON

Curtis Knittle
CableLabs
Fort Worth, TX
September 13-15, 2016

- How many days at next meeting?
 - Ask for 3 days, avoid Sunday

 - 1 hour joint session with YANG TF would be nice, if not November, then at subsequent meeting.

Decisions to make next meeting

- ❑ Wavelength plan
 - See [harstead_3ca_5_0916.pdf](#)
- ❑ System architecture: 1+3 or 1+4
- ❑ TDM versus WDM coexistence
- ❑ Channel bonding
 - Only have ONU upstream transmit
 - Commit to OLT receive path
- ❑ Updated timeline
- ❑ Power classes

Thank you!
