Subject:	Liaison on YANG Model Development	
Approval:	Agreed to at IEEE 802.3 Plenary meeting, Berlin, Germany, 13 <sup>th</sup> July 2017	

<sup>1</sup> This document solely represents the views of the IEEE 802.3 Working Group, and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

Dear Mr. Fargano and members of the Broadband Forum,

Thank you for your communication of 18 May 2017 regarding the BBF's YANG model developments. Specific to IEEE 802.3 Ethernet standards for MAC and PHY the related active project is the YANG Data Model Definitions Task Force (see <http://www.ieee802.org/3/cf>). The Task Force is in progress on creating its first draft. We anticipate having it ready for sharing in the September to November 2017 timeframe.

We look forward to further communications on YANG modeling for Ethernet and how all of these groups can work together in a coordinated fashion.

Sincerely,

David Law

Chair, IEEE 802.3 Ethernet Working Group
