Instructions for subscribing to the reflector may be found at <http://www.ieee802.org/3/ch/reflector.html>. If you cannot subscribe to the reflector for some reason, and need additional assistance please contact the Task Force chair.

Chair's/Chief Editor's Comments – Steve Carlson

Steve thanked everyone for attending the meeting in Spokane last week and for their hard work. We made a lot of progress on the draft at this meeting.

Natalie thanked everyone for the progress made last week and hopes the momentum continues.

Presentations/Discussion:

Presentation: 802.3ch ToDo list, Natalie Wienckowski, General Motors

[P802 3ch Timeline status 0918](#)

Natalie shared the todo list. She asked people to volunteer for topics. Please see the list for those who have volunteered and when they plan to present on this topic. Additional volunteers are requested for areas that

already have volunteers and those that don't. You are urged to contact Natalie with any topics that may be missing from this list. We want to ensure we are ready to crate D1p0 out of November.

Closing Business

Steve and Natalie discussed the fact that we will likely only have 1.5 days in November so it is important to build consensus early through the AdHoc calls.

Meeting adjourned at 7:32 AM PT.

Attendees (from Webex + emails)

First	Last	Affiliation
