

POTENTIAL MULTI-GIG ETHERNET TOPOLOGIES FOR GENERAL MOTORS

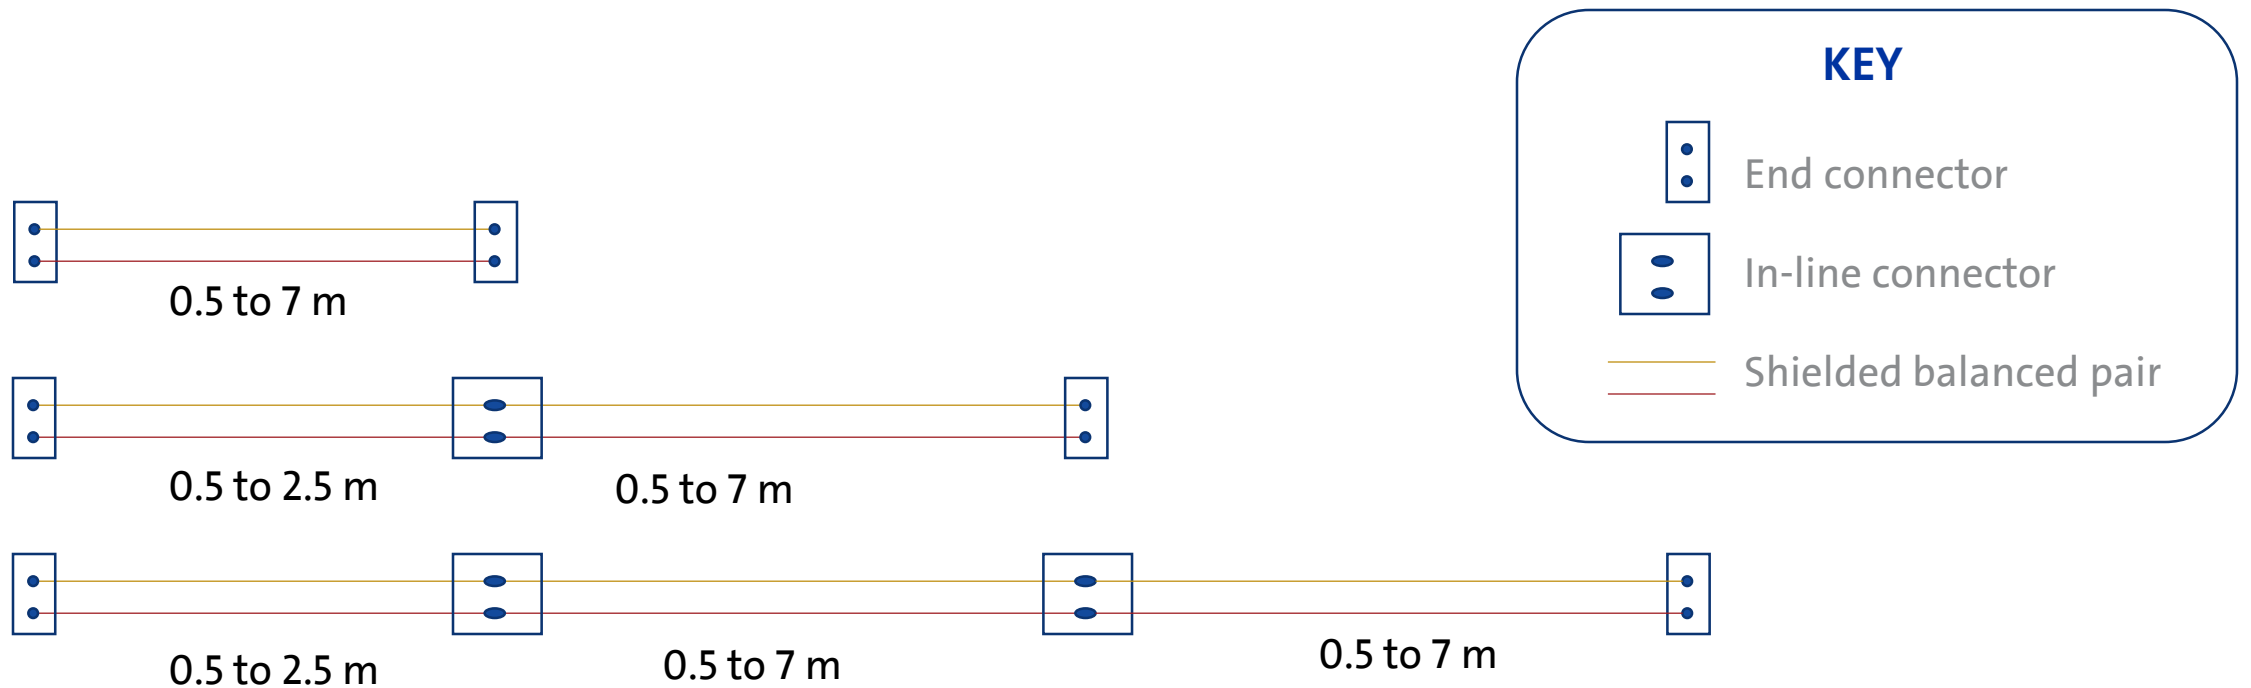

Natalie Wienckowski, General Motors

February 21, 2018

IEEE P802.3ch

TYPICAL GENERAL MOTORS ETHERNET LINK SEGMENTS ...

- Contain 0, 1 or 2 in-line connections
- Are 0.5 m to 11.0 m in total length (not all combinations of the below lengths are possible)
- May include sealed connectors

A blue-tinted landscape featuring a road that recedes into the distance towards a range of mountains. The sky is a clear, light blue, and the overall scene is serene and expansive.

THANK YOU
