

GM Cable Test Spec

July 2017

GM Wire testing requirements can be found in GMW15626 and is based on ISO 6722-1.

([https://global.ihs.com/search_res.cfm?&input_doc_number=GMW15626
&input_doc_title=](https://global.ihs.com/search_res.cfm?&input_doc_number=GMW15626&input_doc_title=))

This is for solid core stranded wire.

Cables are made by crimping terminals without soldering so stranded wire is required.
