Participants in the IEEE-SA “*individual process*” shall act independently of others, including employers

- The [IEEE-SA Standards Board Bylaws](#) require that “*participants in the IEEE standards development individual process shall act based on their qualifications and experience*”
- This means participants:
 - **Shall act & vote** based on their personal & independent opinions derived from their expertise, knowledge, and qualifications
 - **Shall not act or vote** based on any obligation to or any direction from any other person or organization, including an employer or client, regardless of any external commitments, agreements, contracts, or orders
 - **Shall not direct** the actions or votes of other participants or retaliate against other participants for fulfilling their responsibility to act & vote based on their personal & independently developed opinions
- By participating in standards activities using the “*individual process*”, you are deemed to accept these requirements; if you are unable to satisfy these requirements then you shall immediately cease any participation

IEEE-SA standards activities shall allow the fair & equitable consideration of all viewpoints

- The [IEEE-SA Standards Board Bylaws](#) (clause 5.2.1.3) specifies that “*the standards development process shall not be dominated by any single interest category, individual, or organization*”
 - This means no participant may exercise “*authority, leadership, or influence by reason of superior leverage, strength, or representation to the exclusion of fair and equitable consideration of other viewpoints*” or “*to hinder the progress of the standards development activity*”
- This rule applies equally to those participating in a standards development project and to that project’s leadership group
- Any person who reasonably suspects that dominance is occurring in a standards development project is encouraged to bring the issue to the attention of the Standards Committee or the project’s IEEE-SA Program Manager

REVCOM – ACCEPTABLE RESPONSES

Disposition status is “Accepted” when the CRG agreed exactly with the comment and the change proposed by the commenter, or the comment is agreeable and does not require any changes.

Disposition is “Accept in Principle” when the CRG agrees with the comment (at least in part) and implements a change that is not exactly what the ballotter proposed.

Disposition status is “Rejected” when one or more of these applies:

- The CRG disagrees with the comment
- The comment is out of scope
- The proposed change in the comment does not contain sufficient detail so that the CRG can understand the specific changes that satisfy the commenter
- The CRG cannot come to a consensus to make changes necessary to address the comment
- The comment is in support of an unsatisfied previous comment associated with a disapprove vote and does not provide substantive additional rationale
- The comment includes an attachment that does not meet the criteria indicated by the myBallot system; that the CRG cannot address as a single issue; or that does not relate to a specific line, paragraph, figure, or equation in the balloted draft
- The commenter has indicated to the CRG chair that they wish to withdraw the comment

REVCOM – DISPOSITION FOR REJECTION

The disposition detail field should explain why the comment is being rejected using one or more of these reasons:

- An explanation of why the CRG disagrees with the comment,
- A statement that the comment is out of scope, and the rationale,
- A statement that the proposed change in the comment does not contain sufficient detail so that the CRG can understand the specific changes that satisfy the commenter
- A statement that the CRG could not reach consensus on the changes necessary to address the comment, along with the reason
- A statement that the CRG has previously considered the comment (or a substantively similar comment), along with identification (by reference or copy) of the original comment and its disposition detail and status
- A statement of why the CRG considers the attachment does not meet the criteria indicated by the myBallot system; or cannot be addressed as a single issue; or does not relate to a specific line, paragraph, figure, or equation in the balloted draft
- A statement that the commenter has withdrawn the comment
