Interim session, 5/25/04

Hugh Barrass, recording secretary

Straw poll on Task Force Objective "Provide a mechanism for rate limiting."

For 22 : Against 3.

Straw poll on Study group objective "consider preemption."

For 5 : Against 9.

Straw poll on Study group objective "Evaluate 802.3x with finer granularity."

For 19 : Against 1.

Straw poll on Study group objective "Address latency, latency variation and frame loss."

For 21 : Against 1.

Straw poll on Study group objective "Address Evaluate rate limiting, feed forward/back; dynamic/static."

For 21 : Against 3.

Straw poll on Task Force group objective "Support for full duplex."

For 23 : Against 1.

Straw poll on Task Force (Anti) Objectives "No changes to PHYs."

For 19 : Against 1.

Straw poll on Task Force (Anti) Objectives "This is not an end to end flow control."

For 21 : Against 2.

Straw poll on Task Force (Anti) Objectives "No new methods methods for traffic classification defined."

For 16 : Against 2.

Straw poll on Task Force (Anti) Objectives "No reordering of packets within a class."

For 21 : Against 1.

Straw poll on Task Force Objectives "Be consistent with 802.3 and 802.1 layer architecture."

For 21 : Against 0.

Straw poll on Task Force Objectives "Be consistent with slow protocols."

For 15 : Against 0.

Straw poll "Do you feel the study group should extend until November?"

For 24 : Against 2.

After straw polls and discussion of future meetings, Ben closed the session at 12.02pm
