Discussion

- Pete Anslow recommended that on slide 14 of dambrosia_3ct_02_190829 the project/standard date should be changed from the “Consent Date” to the “Approval Date” (29 Nov 2018). D'Ambrosia agreed and indicated he would update the presentation for the September presentation.
- There was debate whether the proposed split of the P802.3ct project was premature. There was also discussion related to 1) impact of potential delay to release of 100G DWDM specification; 2) Impact of 75GHz grid and impact on 400G schedule.

D'Ambrosia resumed chairing the meeting at 11:46am

He reminded the group of the following -

1. Reply to email regarding attendance on today's interim teleconference meeting
2. Attendees should take care of their Sept 2019 meeting registration / hotel
3. Deadline for presentations for Sept 2019 Interim was today 8/29 AoE.

Meeting adjourned @ ≈11:47 am.
