General Discussion about presentation

It was noted that given this is a new type of channel for IEEE 802.3 to define, care needs to be taken with a) prior definitions – so they correctly define the channel; and b) that any new definitions do not cause any issues for prior defined channels.

Chair reminded group of Task Force Review on D1.2 and noted that the interim meeting for Feb 20 was cancelled.

Meeting adjourned @ ≈11:25 am.
