

P802.3cu D2.0

Comment Resolution Agenda

P802.3cu Editorial Team

IEEE P802.3cu Task Force Conf Call, 17 March 2020

Comment Resolution Process

Goal is to resolve all comments against Draft 2.0.

Any presentations associated with comments will be reviewed during comment resolution session.

If there is no disagreement on the final proposed response, the comment will be closed as proposed.

If there is disagreement on the final proposed response from anyone other than the commenter, a measure of consensus will be taken and the majority position will decide the final response.

Comment Resolution Process

Editors have identified non-controversial comments as candidates for a bucket motion.

- The initial list of comments for the bucket motion are on slide 10 (also marked “Bucket” in comments file), please review this and ask for a comment to be taken off the list if you don’t agree with the proposed response.
- These comments will not be reviewed individually, but will be resolved as proposed via a single motion

Comments bracketed together with [] cover a common topic.

Where a comment is underlined it contains the proposed response for the group of comments.

The order in which the comments are reviewed and the schedule are subject to change.

Big ticket items

- Tx Overshoot
 - removing the parameter from the spec completely
 - changing the spec from normative to informative
 - modifying the parameter values in the specification
 - providing a description of the test methodology
- 10LogCeq
 - reinstate “TDECQ-10LogCeq”
 - clean up the removal of “TDECQ-10LogCeq”
 - add new parameter “TECQ-10LogCeq”
- 400GBASE-LR4 reach (proposal to change to 10km)

Cross-Clause comments

Topic	Clause	Comment #	Count
Tx Overshoot	140, 151	[8, 9, 16, 17, 34, 36, 39, <u>47</u> , 48, 58, 70, 72, 73, 88, 89, 90, 94, 95, 97, 122], rodes_01	20
10LogCeq	140, 151	[59, 69, <u>87</u> , 93], [38, 52, 53, <u>56</u> , 57, 71, 119, 120, 121], [62, 68], cole_01, dawe_01, nicholl_03, nicholl_04	15
Interop	140, 151	[37, <u>67</u>], 103, 104, 105, 106, 115, 116	8
Rx Sensitivity	140, 151	29, 83, 84, 85, 102, 77, 78, 79, 96, 111	10
Tx Average Power	140, 151	54, [<u>92</u> , 109]	3
Total			56
