

EFM Copper

Work for the week

EFM January, 2003

**Hugh Barrass (Cisco Systems),
Chair. IEEE 802.3ah copper sub task force**

Quick summary

- **Hawaii**

 - Major issues raised....

 - ... and not lowered!

 - Main problems with encapsulation and LR PHY

 - Aim to resolve during opening session

- **Draft 1.2 plus 1.1a published**

 - Comments – 85 total – compared to 173 last draft

- **Goals for the week**

 - Settle 2 big issues

 - Resolve **all** comments

 - Adopt draft 1.3 – for **all** clauses

Comments

- 20 “hangover comments” distort the picture

Clause	E	T	TR	totals
61	21	23	4 (1 old)	48 (1 old)
62	4	7 (1 old)	5	16 (1 old)
62A	3	0	1 (1 old)	4 (1 old)
63	0	1 (1 old)	16 (16 old)	17 (17 old)
Totals	28	31 (2 old)	26 (18 old)	85 (20 old)

The plan

- **Much more time available**
Interim means 2 full days of copper
- **Attack comments in order**
Tuesday Clause 61
Wednesday Clause 62, 62A (and 63)
- **Extra work (if spare time)**
Review new text for encapsulation
Look at 63A (also 62A) in more depth
- **Other business**
Adopt & move onto D1.3
Plugging gaps

Please read the draft...
