

# EFM P2MP

## Issues and Work Plan

**Gerry Pesavento**

**[gerry.pesavento@teknovus.com](mailto:gerry.pesavento@teknovus.com)**

# P2MP Recap and Issues

---

MPCP Baseline drafts completed for review

***General Description***

***Architecture and Layering Model***

***Timing Model***

***Message Formats***

***ONU Auto Discovery***

***P2PE, Downstream Broadcast***

***Compliance Layering***

Progress in all areas, but open issues remain. Examples:

Layer of Multiplexing function (RS, MAC Control)

Additional/optional field in GATE/REPORT message

Auto discovery assignments, contention resolution

Perpetual cyclical mode

And others

# P2MP Work Plan

---

- (1) Review Baseline Proposal sections; discussion, clarification
- (2) P2MP Track vote on Baseline Proposal, tune for delivery to 802.3ah General Session
- (3) Review non-baseline presentations
- (4) Identify key open issues for P2MP, and plan for resolution
