Please don't change the structure of this table, just insert the necessary information.

The current ITU-T VDSL Recommendation G.993.1 contains reference models, bandplans, interfaces and various management functions. During the meeting of SG 15 in Geneva, 20-31 January 2003, the issue of the VDSL line code was discussed. The group agreed on a goal to make a line code selection during the 7-11 July 2003 Q.4/15 Rapporteur meeting.
